stack-levels — zsh

Someone just vented about the problem you solve.

3 moves to turn it into your next post.

3 moves

step-01.sh

THE REASON

That vent is a free brief

> They named the pain.
In their own words.
No pitch in the way.
And you scrolled past it.

step-02.sh

STEP 01 / 03

Search the feeling

```
> Search X for the pain.
"so tired of" + your problem.
Tap Latest.
Now read what they say.
```

step-03.sh

STEP 02 / 03

Save their exact words

> Copy the line that stings most.
Keep their slang.
That's your next headline.
But don't pitch yet.

step-04.sh

STEP 03 / 03

Ask one question back

> Ask what they tried already.
They'll name what failed.
That's your competitor list.
And your next post.

You hear them now. Find more.

Comment SIGNALS and I'll DM you the Buyer Signal Phrase List: the words buyers use before they pay.
